Forecast For The United Kingdom
Issued by Met Office Exeter
at 1600 on Friday 17 Dec 2021

++ Valid for broadcast between 1800 and 0600

Headline:
Dry and settled, some frost, fog and low cloud.

This Evening and Tonight:
Low cloud and fog affecting eastern parts of England, spreading northwards and westwards. Clear spells across the north and west allowing a frost in places. Windy across far southwest.

Saturday:
Low cloud and fog affecting much of England and Wales, where it will feel rather cold, though some sunshine is possible in the west. More widely sunny across Scotland.

Outlook for Sunday to Tuesday:
Dry but mostly cloudy, with long-lasting fog in places on Sunday, but brighter across parts of Scotland. Feeling fresher for most on Tuesday. Generally light winds, but becoming rather cold.
